What you would like to know about AI
use in arbitration, didn't dare to ask,
and nobody explained?

October 15, 2025
17:00 h. (CET)

SEBASTIAN FEILER
PARTNER AT BODENHEIMER

ERIK G. SCHÄFER
COUNSEL AT BODENHEIMER

This event aims at providing hands on information about existing use cases for AI, some affordable and currently available AI tools, their usage, the secure environment required by the legal profession for such use, and imminent future use cases on the horizon for practitioners. The information provided aims at allowing participants to understand the potential and limitations of current AI tools and using them as first step for their own experimentation purposes with a view of enabling informed decisions regarding the deployment of AI for supporting arbitration related case work.
